

Press Release

FOR IMMEDIATE DISTRIBUTION:

7/27/11

The Society of Professional Locksmiths (SOPL) announces a new *Automotive Key Code from VIN* member benefit. Qualified members will be given a \$2-\$6 credit provided by the SOPL towards each automotive key code that they purchase from www.KeyCodePro.com starting 8/1/11. Pin numbers are included.

“This new exclusive member benefit is yet another example of how the Society of Professional Locksmiths is adding value to its growing membership.” Tom Lynch, director of operations, said. “The SOPL is uniquely equipped to provide such valuable opportunities that assist the locksmiths in saving money while staying competitive at the same time!”

Each qualified member must complete a simple registration provided by the SOPL on behalf of www.KeyCodePro.com to activate credits towards their participation. Each completed transaction will automatically be supplied a \$2-\$6 credit issued by the SOPL. “These credits are not a discount, they are offsets provided by the SOPL!” Lynch, explains.

“Membership has its privilege, and the SOPL is delivering benefits unlike any other organization in the locksmith industry.” Barry Campbell, SOPL member said. “Now our members can receive key codes 24/7 via the Internet and be rewarded for doing it!”
