Locksmiths Receive FREE Training Program with SOPL Membership

The Society of Professional Locksmiths is now providing their complete 500 page 12 chapter Locksmith Training Program (LTP) as a member benefit. Courses consist of the mandatory topics required toward most certifications and state licensing requirements and are easily accessible online. Locksmiths needing to prepare for certifications as well as shop owners wanting to train staff and newcomers who desire to enter into a career as a professional locksmith can do it at no additional cost.

“This is the best possible membership benefit available for the hard working locksmiths in this industry, or newcomers wanting to become a locksmith”, says Tom Lynch, Founder of the SOPL. They have everything they need to succeed at a cost they can not only afford, but actually generate income from on the first day. We have met every challenge and delivered more for a lot less!”

Membership cost into the Society is \$100 with a onetime registration fee of \$50

Contact Tom Lynch - email lockquiz@gmail.com for more details or visit www.sopl.us to join.
