

Press Release

FOR IMMEDIATE DISTRIBUTION:

3/2/11

Society of Professional Locksmiths Partner with Ingersoll Rand & Sprint

Sprint and Ingersoll Rand have renewed their wireless agreement with an extended term and improved discounts. Under this program members of the Society of Professional Locksmiths who are dealers, distributors and technicians will be eligible for an 18-20% discount on their monthly cell phone bills, waived activation and shipping with a \$50 equipment credit.

“At a time when our members are struggling in a down economy, I am grateful that Ingersoll Rand has reached out to the SOPL and made this opportunity possible” Tom Lynch, Founder of the Society of Professional Locksmiths, said.

In addition to the discounts members can receive a rate plan analysis at no charge to see how they can improve cellular plans or rates. “I have arranged for an additional exclusive benefit for the members of the Society of Professional Locksmiths which includes a car charger at no additional cost. This may not seem like much, but every penny counts” said Lynch.
